Experience

2019 - 2022
BB Enterprises

Co-Founder

BB Enterprises is a one-stop solution to premium, high quality Organic Products. Our mission is to help people live a healthier, wholesome life by providing them with a variety of 100% certified, authentic organic foods. We value honesty, integrity and continual self-improvement. We are committed to a sustainable environment, zero-additive foods and complete customer-satisfaction.

2015 - 2019
Nuance India Pvt Ltd

QA Engineer - Automation

Involved in Analysis and Review of the Draft Use Cases and User-Stories provided by the Business Analysts for every Release.

Assisted in developing BDD framework with Java programming framework for automation of smoke test cases.

Performed Regression testing to make sure that the product is free from defects and as per the requirement.

Involved in performing data inspection for files loaded from source to landing zone.

Detected, reported and tracked defects using JIRA.

Worked on Data Driven/Page Object Model Framework and extracted data from external Excel files using Apache POI and loaded into the variables in the scripted code.

Worked on Maven for build and dependency management where I have added different dependencies such as apache poi/TestNG/Maven-plugin- api etc. according to the requirement.

Performed Cross Browser and parallel testing to test the applications are working as desired in different browsers and environments.

Involved in User Acceptance Testing (UAT).

Work with Selenium Web Driver and execute the test cases for NetScript using Selenium Web Driver.

Performed Functional, Smoke, Usability, Integration and Regression Testing on EMON, EditScript and NetScript.

Worked in protocols used in healthcare such as web Services, HTML, XML,HL7

Integrated the selenium smoke test into Jenkins for continuous integration.

Worked on distributed test automation execution on different environment as part of Continuous Integration Process using Selenium WebDriver and Jenkins.

Applied synchronization points and checkpoints wherever required.

Worked on creating Rest Assured project to test API's.

Interacted with developers and business Users to communicate the defects.
